Asheville, NC | (305) 790-8380 | allancollado31@outlook.com

LinkedIn: www.linkedin.com/in/allan31nic

Professional Summary

Motivated and highly disciplined career-changer with a strong foundation in software development, certified in Java and Linux, and currently pursuing an AAS in Computer Information Systems.

Equipped with hands-on experience building full-stack applications, and skilled in Java, Spring Boot, MySQL, Docker, and Git. Known for being a fast learner and team player with a passion for technology, security, and clean code. Ready to bring technical skills and a strong work ethic to an entry-level software development role at American Airlines.

Technical Skills

Languages: Java, Python, JavaScript, C++, C, HTML, CSS

Frameworks & Tools: Spring Boot, Hibernate, Docker, Git, JUnit, Mockito

Databases: MySQL

DevOps & Cloud: Docker, Kubernetes (beginner), GitHub, Azure

DevOps

Security: Familiar with PCI, PII, SOX standards, and OWASP Top 10

Other: Object-Oriented Programming (OOP), REST APIs, Agile, TDD, SDLC

Education

Associate of Applied Science – Computer Information Systems

(Expected Graduation: Dec 2025)

Blue Ridge Community College – Online

Certifications

- Oracle Certified Java 21 Developer
- CompTIA Linux+ Certified

Professional Experience

- Machine Operator
Ipex Silver-Line – Asheville, NC
September 2024 – Present
- Operate and maintain industrial machinery with strict adherence to safety and quality standards.

- Monitor production data and identify performance issues, applying problem-solving skills to reduce downtime.
- Work closely with cross-functional teams to ensure efficient operations — demonstrating teamwork, precision, and accountability under pressure.

Software Projects

- User Management System (Java + MySQL + Spring Boot)
- Designed and built a modular application to manage users and addresses with full CRUD functionality.
- Implemented DAO and Service layers using Spring framework with JDBC integration and MySQL database.
- Created modular architecture with separate config, model, DAO, and service packages.
- Managed dependencies and builds with Gradle, and version control with GitHub.
- Portfolio Website (In Progress)
- Developing a personal website to showcase GitHub projects, resume, and skills.

- Built using HTML, CSS, and JavaScript with plans to integrate React and CI/CD pipeline.

Professional Highlights

- First in family to pursue and soon complete a Computer Information Systems degree.
- Passionate about ethical hacking and security best practices.
- Strong understanding of software development life cycle, object-oriented design, and clean coding principles.
- Proven reliability and discipline with 100% attendance at current job.

Additional Information

- Willing to relocate or work hybrid.
- Available for interviews anytime
- Committed to continuous learning and career growth in IT
